# Chapter 3 File Naming Conventions and Plan Sheet Organization

There are many types of files in use at CFLHD. Of utmost importance is the naming convention of the MicroStation design files produced throughout a project. The overall file naming convention is shown below, as well as types of files with extensions, used at CFLHD. The convention is shown along with the 3-digit file descriptor for most of the sheets in a typical plan set. As it is hard to foresee every type of file that may be included in a plan set, a special case may arise where there is no file descriptor for a file that has been created. In such a case, follow the rest of the naming convention as closely as possible, while generating a unique file descriptor for the new file.

Also shown, at the end of this chapter, is the order of plan sheets for a typical CFLHD project. Again, it is hard to imagine every type of file that may be created in a special case. If a file is not shown, best judgment must be exercised to place the file in an appropriate place within the plan set.

#### Standard File Extensions

Extension	Description
. DGN	MicroStation graphics design file
. DWG	AutoCAD graphics drawing file
. DGNLIB	MicroStation V8 library containing level definitions, text styles, and dimension styles
. DDB	GEOPAK D&C Manager database file
. RSC	MicroStation resource file
.X30	GEOPAK Criteria files
.CON	MicroStation design file containing contours
.MAP	MicroStation design file containing mapping planimetrics
.DTM	MicroStation design file containing 3D graphics used to create GEOPAK .TIN file
.TIN	GEOPAK digital terrain model
.RWP	MicroStation design file containing right of way plans

**Table 3-1: Standard File Extensions** 

### Naming Convention, MicroStation Design Files

All CFLHD MicroStation design files should be named with the following formats.

#### CFLHD roadway design files:

#### CFLHD specials, \*standards/details:

\*Standards and details should be downloaded and not renamed. A special is a modified standard/detail or project specific detail.

#### CFLHD bridge design files:

#### CFLHD survey design files:

#### CFLHD GEOPAK .gpk files

When working on CFLHD projects, the **.gpk** file will be assigned by the Design Team Leader. The convention will be a standard numerical system, starting at 100. The first **.gpk** file assigned would be **job100.gpk**, then **job101.gpk**, etc. Internally, CFLHD personnel will request a **.gpk** number from the Design Team Leader. The Design Team Leader will then check out a number, from a file on the wheels server, documenting the user, number, and project the number is assigned to. This document will be the master list of all **.gpk** files assigned for all projects. Design Team leader can checkout the .gpk number from *N:\CFL-DPITWaster .GPK NumbersWasterList.xls*.

Descriptor File type  ALI Alignment file(s) (prefer chain names are included)  C##### US Customary or Metric detail (will include the bid iter number)  CPP Construction phasing plan  CTL Survey Control Sheets  DPL Drainage plan layout  ECP Erosion control plan sheets  SHP Shape file(s) (if not included in alignment file)  OBL Obliteration Plan(s)  PAT Pattern file(s) (if not included in alignment file)  PKG Parking lot file(s)  PLA Site plans, intersection details  PLN cutting sheets from one file if multiple plan sheets in c file.) ## **Plan Sheet Organization**

Plan Organization		
A Sheets	Title Sheet, Typical Sections	
B Sheets	Summaries and Tabs	
C Sheets	Mainline Plan and Profile Sheets	
D Sheets	Minor Road, Parking, Pullout Plan and Profile Sheets	
E Sheets	Division 150 Layouts, Standards/Details and Specials **	
F Sheets	Division 200 Layouts, Standards/Details and Specials **	
G Sheets	Division 250 Layouts, Standards/Details and Specials **	
H Sheets	Division 300 Layouts, Standards/Details and Specials **	
K Sheets	Division 400 Layouts, Standards/Details and Specials **	
R Sheets	Division 500 – Structural Sheets	
S Sheets	Division 550 - Structural Sheets	
T Sheets	Division 600 Layouts, Standards/Details and Specials **	
X Sheets	Mainline Cross Sections	
Y Sheets	Parking Area, Minor Road Cross Sections	
Z Sheets	Culvert Cross Sections	

**Table 3-3: Plan Organization** 

**Note:** I, J, and O letter designations are not to be used so as not to cause confusion between these letters and the numbers 0 and 1.

\*\* For the order of sheets, layout sheets should be placed 1<sup>st</sup>, standards/details 2<sup>nd</sup>, and specials last.

Example	Index to Sheets
A1	Title Sheet
A2	Conventional Plan and Symbols and Abbreviations
A3	Survey Control Information Sheet
A4-A5	Typical Sections
B1-B5	Summary of Quantities
B6	Grading Summary and Mass Haul Diagram
B7	Drainage Summary
B8-B10	Miscellaneous Summaries
C1-C20	Mainline Plan and Profile Sheets
D1	Sacramento Lake Parking Area Plan and Profile
D2	Sunspot Road Intersection Plan
D3-D4	Thousand Mile Canyon Parking/Pullout Plan and Profile
E1-E11	157 Layouts — Erosion Control Plan Sheets
E12-E13	157 Erosion Control Standards — M157-1 and M157-3
F1	CM204 Detail — Minor Road Connections
G1	M251-50 Detail — Placed Riprap
G2-G3	251 Special — Stream Bank Protection
G4-G9	255 Layouts — MSE Wall Layout Sheets
G10	CM255-01 Detail — MSE Wall Modular Block Face
G11	CM255-02 Detail — MSE Wall Welded Wire Face
K1	401 Special — Asphalt Curb and Paved Ditch
S1-S9	Bridge Plans for Clear Creek
S10-S15	Bridge Plans for Rio De Las Vacas
T1-T2	601 Concrete Headwall Standards — M601-1, M601-2
T3-T7	602 Pipe Culvert Standards — M602-1, M602-2, M602-3,
	M602-4 & M602-6
T8-T10	617 Guardrail Standards M617-10, 617-17, 617-23
T11-T12	619 Cattle Guard Standards M619-1, M619-2 and M619-3
T13-T22	633 Mainline Signing and Striping layout
T23	633 Special — Sacramento Lake Parking Striping Plan
T24	633 Special — Thousand Mile Canyon Parking Striping
T25	635 Traffic Control Standard — M635-01
T26-T28	635 Details — Traffic Control
T29	635 Special — Detour at Sta. 28+020 TO Sta. 28+084
X1-X60	Mainline Cross Sections
Y1-Y5	Sacramento Lake Parking Area Cross Sections
Y6-Y10	Thousand Mile Canyon Parking Cross Sections
Z1-Z20	Culvert Cross Sections
